

**UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF NEW YORK**

DAWN BEVERLY, Individually and On  
Behalf of All Others Similarly Situated,

Plaintiff,

v.

PLUG POWER INC., ANDREW MARSH,  
and PAUL B. MIDDLETON,

Defendants.

Case No.

**CLASS ACTION COMPLAINT FOR  
VIOLATIONS OF THE FEDERAL  
SECURITIES LAWS**

**JURY TRIAL DEMANDED**

Plaintiff Dawn Beverly (“Plaintiff”), individually and on behalf of all others similarly situated, by and through her attorneys, alleges the following upon information and belief, except as to those allegations concerning Plaintiff, which are alleged upon personal knowledge. Plaintiff’s information and belief is based upon, among other things, her counsel’s investigation, which includes without limitation: (a) review and analysis of regulatory filings made by Plug Power Inc. (“Plug” or the “Company”) with the United States (“U.S.”) Securities and Exchange Commission (“SEC”); (b) review and analysis of press releases and media reports issued by and disseminated by Plug; and (c) review of other publicly available information concerning Plug.

### **NATURE OF THE ACTION AND OVERVIEW**

1. This is a class action on behalf of persons and entities that purchased or otherwise acquired Plug securities between November 9, 2020 and March 1, 2021, inclusive (the “Class Period”). Plaintiff pursues claims against the Defendants under the Securities Exchange Act of 1934 (the “Exchange Act”).

2. Plug provides comprehensive hydrogen fuel cell turnkey solutions focused on systems used to power electric motors in the electric mobility and stationary power markets.

3. On March 2, 2021, before the market opened, Plug filed a Notification of Late Filing with the SEC stating that it could not timely file its annual report for the period ended December 31, 2020 because the Company was completing a “review and assessment of the treatment of certain costs with regards to classification between Research and Development versus Costs of Goods Sold, the recoverability of right of use assets associated with certain leases, and certain internal controls over these and other areas.” The Company stated that “[i]t is possible that one or more of these items may result in charges or adjustments to current and/or prior period financial statements.”

4. On this news, the Company's stock price fell \$3.68, or 7%, to close at \$48.78 per share on March 2, 2021, on unusually heavy trading volume. The share price continued to decline by \$9.48, or 19.4%, over three consecutive trading sessions to close at \$39.30 per share on March 5, 2021, on unusually heavy trading volume.

5. Throughout the Class Period, Defendants made materially false and/or misleading statements, as well as failed to disclose material adverse facts about the Company's business, operations, and prospects. Specifically, Defendants failed to disclose to investors: (1) that the Company would be unable to timely file its 2020 annual report due to delays related to the review of classification of certain costs and the recoverability of the right to use assets with certain leases; (2) that the Company was reasonably likely to report material weaknesses in its internal control over financial reporting; and (3) that, as a result of the foregoing, Defendants' positive statements about the Company's business, operations, and prospects were materially misleading and/or lacked a reasonable basis.

6. As a result of Defendants' wrongful acts and omissions, and the precipitous decline in the market value of the Company's securities, Plaintiff and other Class members have suffered significant losses and damages.

#### **JURISDICTION AND VENUE**

7. The claims asserted herein arise under Sections 10(b) and 20(a) of the Exchange Act (15 U.S.C. §§ 78j(b) and 78t(a)) and Rule 10b-5 promulgated thereunder by the SEC (17 C.F.R. § 240.10b-5).

8. This Court has jurisdiction over the subject matter of this action pursuant to 28 U.S.C. § 1331 and Section 27 of the Exchange Act (15 U.S.C. § 78aa).

9. Venue is proper in this Judicial District pursuant to 28 U.S.C. § 1391(b) and Section 27 of the Exchange Act (15 U.S.C. § 78aa(c)). Substantial acts in furtherance of the alleged fraud

or the effects of the fraud have occurred in this Judicial District. Many of the acts charged herein, including the dissemination of materially false and/or misleading information, occurred in substantial part in this Judicial District.

10. In connection with the acts, transactions, and conduct alleged herein, Defendants directly and indirectly used the means and instrumentalities of interstate commerce, including the United States mail, interstate telephone communications, and the facilities of a national securities exchange.

### **PARTIES**

11. Plaintiff Dawn Beverly, as set forth in the accompanying certification, incorporated by reference herein, purchased Plug securities during the Class Period, and suffered damages as a result of the federal securities law violations and false and/or misleading statements and/or material omissions alleged herein.

12. Defendant Plug is incorporated under the laws of Delaware with its principal executive offices located in Latham, New York. Plug's common stock trades on the NASDAQ exchange under the symbol "PLUG."

13. Defendant Andrew Marsh ("Marsh") was the Company's Chief Executive Officer ("CEO") at all relevant times.

14. Defendant Paul B. Middleton ("Middleton") was the Company's Chief Financial Officer ("CFO") at all relevant times.

15. Defendants Marsh and Middleton (collectively the "Individual Defendants"), because of their positions with the Company, possessed the power and authority to control the contents of the Company's reports to the SEC, press releases and presentations to securities analysts, money and portfolio managers and institutional investors, i.e., the market. The Individual Defendants were provided with copies of the Company's reports and press releases alleged herein

to be misleading prior to, or shortly after, their issuance and had the ability and opportunity to prevent their issuance or cause them to be corrected. Because of their positions and access to material non-public information available to them, the Individual Defendants knew that the adverse facts specified herein had not been disclosed to, and were being concealed from, the public, and that the positive representations which were being made were then materially false and/or misleading. The Individual Defendants are liable for the false statements pleaded herein.

## **SUBSTANTIVE ALLEGATIONS**

### **Background**

16. Plug provides comprehensive hydrogen fuel cell turnkey solutions focused on systems used to power electric motors in the electric mobility and stationary power markets.

### **Materially False and Misleading Statements Issued During the Class Period**

17. The Class Period begins on November 9, 2020. On that day, Plug reported its third quarter 2020 financial results in a shareholder letter posted on its website. Therein, the Company stated, in relevant part:

Plug Power achieved a record third quarter with gross billings of \$125.6M, the highest quarter in the company's 22-year history. This gross billing is over 10% higher than the previous guidance and reflects growth of 106% year-over-year and 73.4% sequentially, above another record quarter in Q2 2020. Plug Power is raising 2020 full-year gross billings guidance to \$325M-\$330M up from \$310M.

18. The same day, Plug filed its quarterly report on Form 10-Q for the period ended September 30, 2020, affirming the previously reported financial results. Regarding Plug's disclosure controls and internal control over financial reporting, the report stated, in relevant part:

(a) Disclosure controls and procedures.

The chief executive officer and chief financial officer, based on their evaluation of disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-Q, have concluded that *the Company's disclosure controls and procedures are*

*effective* for ensuring that information required to be disclosed in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in filed or submitted reports is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in internal control over financial reporting.

*There were no changes in the Company's internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.*

(Emphases added.)

19. On February 25, 2021, Plug released its fourth quarter and full year 2020 financial results in a shareholder letter posted on its website. Therein, the Company stated, in relevant part:

**Plug Power Reports \$337 million in Gross Billings for 2020, Up 42.5% Year over Year**

Announced Multiple Partnerships and Executed Strategic Acquisitions, Establishing Global Platform as a Green Hydrogen Solutions Company

Well Positioned to Leverage Industry Leadership and Capture Meaningful Share of in the \$10T Hydrogen Economy

- 2020 marked a record year in gross billings, with Q4 gross billings of \$96.3 million and \$337 million for the full year reflecting the Company's strong value proposition in the growing hydrogen industry
- As previously announced, reported revenue and results were negatively impacted by certain costs of \$456 million recorded in the fourth quarter, the majority being non-cash charges related to the accelerated vesting of a customer's remaining warrants. Given the expenses for this customer program have been fully expensed, the Company's go-forward reported results should be easier to understand. This resulted in reported revenue of negative \$316 million for the quarter and negative \$100 million for the full year.
- Plan to make continued investment during 2021 to deliver on substantial growth opportunity in the green hydrogen economy on a global basis

- Strong balance sheet with now over \$5 billion in cash to execute on its global growth strategy and objectives
- On track to deliver on recently raised 2021 and 2024 financial targets

20. The above statements identified in ¶¶ 17-19 were materially false and/or misleading, and failed to disclose material adverse facts about the Company's business, operations, and prospects. Specifically, Defendants failed to disclose to investors: (1) that the Company would be unable to timely file its 2020 annual report due to delays related to the review of classification of certain costs and the recoverability of the right to use assets with certain leases; (2) that the Company was reasonably likely to report material weaknesses in its internal control over financial reporting; and (3) that, as a result of the foregoing, Defendants' positive statements about the Company's business, operations, and prospects were materially misleading and/or lacked a reasonable basis.

#### **Disclosures at the End of the Class Period**

21. On March 2, 2021, before the market opened, Plug filed a Notification of Late Filing with the SEC stating that it could not timely file its annual report for the period ended December 31, 2020 because the Company was completing a "review and assessment of the treatment of certain costs with regards to classification between Research and Development versus Costs of Goods Sold, the recoverability of right of use assets associated with certain leases, and certain internal controls over these and other areas." The Company stated that "[i]t is possible that one or more of these items may result in charges or adjustments to current and/or prior period financial statements." Specifically, the Company stated:

For the year ended December 31, 2020, Plug Power Inc. (the "Company") became a large accelerated filer for the first time and, as a result, the Company has a shortened filing deadline of 60 days rather than 75 days to file its Annual Report on Form 10-K for the year ended December 31, 2020 (the "Form 10-K"). The Company requires additional time to complete the procedures relating to its year-end reporting process, including the completion of the Company's financial

statements and procedures relating to management's assessment of the effectiveness of internal controls, and the Company is therefore unable to file the Form 10-K by March 1, 2021, the prescribed filing due date. ***The Company is working diligently to complete the necessary work, including review and assessment of the treatment of certain costs with regards to classification between Research and Development versus Costs of Goods Sold, the recoverability of right of use assets associated with certain leases, and certain internal controls over these and other areas. It is possible that one or more of these items may result in charges or adjustments to current and/or prior period financial statements.*** The Company is still evaluating whether any such charges or adjustments would be required and, if required, whether any such charges or adjustments would be material; but any charges, if required, would be non-cash in nature and any such adjustments or charges would not impact the Company's guidance on forward projections. The Company expects to file the Form 10-K within the extension period provided under Rule 12b-25 under the Securities Exchange Act of 1934, as amended.

(Emphasis added.)

22. On this news, the Company's stock price fell \$3.68, or 7%, to close at \$48.78 per share on March 2, 2021, on unusually heavy trading volume. The share price continued to decline by \$9.48, or 19.4%, over three consecutive trading sessions to close at \$39.30 per share on March 5, 2021, on unusually heavy trading volume.

### **CLASS ACTION ALLEGATIONS**

23. Plaintiff brings this action as a class action pursuant to Federal Rule of Civil Procedure 23(a) and (b)(3) on behalf of a class, consisting of all persons and entities that purchased or otherwise acquired Plug securities between November 9, 2020 and March 1, 2021, inclusive, and who were damaged thereby (the "Class"). Excluded from the Class are Defendants, the officers and directors of the Company, at all relevant times, members of their immediate families and their legal representatives, heirs, successors, or assigns, and any entity in which Defendants have or had a controlling interest.

24. The members of the Class are so numerous that joinder of all members is impracticable. Throughout the Class Period, Plug's shares actively traded on the NASDAQ.

While the exact number of Class members is unknown to Plaintiff at this time and can only be ascertained through appropriate discovery, Plaintiff believes that there are at least hundreds or thousands of members in the proposed Class. Millions of Plug shares were traded publicly during the Class Period on the NASDAQ. Record owners and other members of the Class may be identified from records maintained by Plug or its transfer agent and may be notified of the pendency of this action by mail, using the form of notice similar to that customarily used in securities class actions.

25. Plaintiff's claims are typical of the claims of the members of the Class as all members of the Class are similarly affected by Defendants' wrongful conduct in violation of federal law that is complained of herein.

26. Plaintiff will fairly and adequately protect the interests of the members of the Class and has retained counsel competent and experienced in class and securities litigation.

27. Common questions of law and fact exist as to all members of the Class and predominate over any questions solely affecting individual members of the Class. Among the questions of law and fact common to the Class are:

(a) whether the federal securities laws were violated by Defendants' acts as alleged herein;

(b) whether statements made by Defendants to the investing public during the Class Period omitted and/or misrepresented material facts about the business, operations, and prospects of Plug; and

(c) to what extent the members of the Class have sustained damages and the proper measure of damages.

28. A class action is superior to all other available methods for the fair and efficient adjudication of this controversy since joinder of all members is impracticable. Furthermore, as the damages suffered by individual Class members may be relatively small, the expense and burden of individual litigation makes it impossible for members of the Class to individually redress the wrongs done to them. There will be no difficulty in the management of this action as a class action.

**UNDISCLOSED ADVERSE FACTS**

29. The market for Plug's securities was open, well-developed and efficient at all relevant times. As a result of these materially false and/or misleading statements, and/or failures to disclose, Plug's securities traded at artificially inflated prices during the Class Period. Plaintiff and other members of the Class purchased or otherwise acquired Plug's securities relying upon the integrity of the market price of the Company's securities and market information relating to Plug, and have been damaged thereby.

30. During the Class Period, Defendants materially misled the investing public, thereby inflating the price of Plug's securities, by publicly issuing false and/or misleading statements and/or omitting to disclose material facts necessary to make Defendants' statements, as set forth herein, not false and/or misleading. The statements and omissions were materially false and/or misleading because they failed to disclose material adverse information and/or misrepresented the truth about Plug's business, operations, and prospects as alleged herein.

31. At all relevant times, the material misrepresentations and omissions particularized in this Complaint directly or proximately caused or were a substantial contributing cause of the damages sustained by Plaintiff and other members of the Class. As described herein, during the Class Period, Defendants made or caused to be made a series of materially false and/or misleading statements about Plug's financial well-being and prospects. These material misstatements and/or omissions had the cause and effect of creating in the market an unrealistically positive assessment

of the Company and its financial well-being and prospects, thus causing the Company's securities to be overvalued and artificially inflated at all relevant times. Defendants' materially false and/or misleading statements during the Class Period resulted in Plaintiff and other members of the Class purchasing the Company's securities at artificially inflated prices, thus causing the damages complained of herein when the truth was revealed.

### **LOSS CAUSATION**

32. Defendants' wrongful conduct, as alleged herein, directly and proximately caused the economic loss suffered by Plaintiff and the Class.

33. During the Class Period, Plaintiff and the Class purchased Plug's securities at artificially inflated prices and were damaged thereby. The price of the Company's securities significantly declined when the misrepresentations made to the market, and/or the information alleged herein to have been concealed from the market, and/or the effects thereof, were revealed, causing investors' losses.

### **SCIENTER ALLEGATIONS**

34. As alleged herein, Defendants acted with scienter since Defendants knew that the public documents and statements issued or disseminated in the name of the Company were materially false and/or misleading; knew that such statements or documents would be issued or disseminated to the investing public; and knowingly and substantially participated or acquiesced in the issuance or dissemination of such statements or documents as primary violations of the federal securities laws. As set forth elsewhere herein in detail, the Individual Defendants, by virtue of their receipt of information reflecting the true facts regarding Plug, their control over, and/or receipt and/or modification of Plug's allegedly materially misleading misstatements and/or their associations with the Company which made them privy to confidential proprietary information concerning Plug, participated in the fraudulent scheme alleged herein.

**APPLICABILITY OF PRESUMPTION OF RELIANCE  
(FRAUD-ON-THE-MARKET DOCTRINE)**

35. The market for Plug's securities was open, well-developed and efficient at all relevant times. As a result of the materially false and/or misleading statements and/or failures to disclose, Plug's securities traded at artificially inflated prices during the Class Period. On January 26, 2021, the Company's share price closed at a Class Period high of \$73.18 per share. Plaintiff and other members of the Class purchased or otherwise acquired the Company's securities relying upon the integrity of the market price of Plug's securities and market information relating to Plug, and have been damaged thereby.

36. During the Class Period, the artificial inflation of Plug's shares was caused by the material misrepresentations and/or omissions particularized in this Complaint causing the damages sustained by Plaintiff and other members of the Class. As described herein, during the Class Period, Defendants made or caused to be made a series of materially false and/or misleading statements about Plug's business, prospects, and operations. These material misstatements and/or omissions created an unrealistically positive assessment of Plug and its business, operations, and prospects, thus causing the price of the Company's securities to be artificially inflated at all relevant times, and when disclosed, negatively affected the value of the Company shares. Defendants' materially false and/or misleading statements during the Class Period resulted in Plaintiff and other members of the Class purchasing the Company's securities at such artificially inflated prices, and each of them has been damaged as a result.

37. At all relevant times, the market for Plug's securities was an efficient market for the following reasons, among others:

(a) Plug shares met the requirements for listing, and was listed and actively traded on the NASDAQ, a highly efficient and automated market;

(b) As a regulated issuer, Plug filed periodic public reports with the SEC and/or the NASDAQ;

(c) Plug regularly communicated with public investors via established market communication mechanisms, including through regular dissemination of press releases on the national circuits of major newswire services and through other wide-ranging public disclosures, such as communications with the financial press and other similar reporting services; and/or

(d) Plug was followed by securities analysts employed by brokerage firms who wrote reports about the Company, and these reports were distributed to the sales force and certain customers of their respective brokerage firms. Each of these reports was publicly available and entered the public marketplace.

38. As a result of the foregoing, the market for Plug's securities promptly digested current information regarding Plug from all publicly available sources and reflected such information in Plug's share price. Under these circumstances, all purchasers of Plug's securities during the Class Period suffered similar injury through their purchase of Plug's securities at artificially inflated prices and a presumption of reliance applies.

39. A Class-wide presumption of reliance is also appropriate in this action under the Supreme Court's holding in *Affiliated Ute Citizens of Utah v. United States*, 406 U.S. 128 (1972), because the Class's claims are, in large part, grounded on Defendants' material misstatements and/or omissions. Because this action involves Defendants' failure to disclose material adverse information regarding the Company's business operations and financial prospects—information that Defendants were obligated to disclose—positive proof of reliance is not a prerequisite to recovery. All that is necessary is that the facts withheld be material in the sense that a reasonable investor might have considered them important in making investment decisions. Given the

importance of the Class Period material misstatements and omissions set forth above, that requirement is satisfied here.

**NO SAFE HARBOR**

40. The statutory safe harbor provided for forward-looking statements under certain circumstances does not apply to any of the allegedly false statements pleaded in this Complaint. The statements alleged to be false and misleading herein all relate to then-existing facts and conditions. In addition, to the extent certain of the statements alleged to be false may be characterized as forward looking, they were not identified as “forward-looking statements” when made and there were no meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those in the purportedly forward-looking statements. In the alternative, to the extent that the statutory safe harbor is determined to apply to any forward-looking statements pleaded herein, Defendants are liable for those false forward-looking statements because at the time each of those forward-looking statements was made, the speaker had actual knowledge that the forward-looking statement was materially false or misleading, and/or the forward-looking statement was authorized or approved by an executive officer of Plug who knew that the statement was false when made.

**FIRST CLAIM**

**Violation of Section 10(b) of The Exchange Act and  
Rule 10b-5 Promulgated Thereunder  
Against All Defendants**

41. Plaintiff repeats and re-alleges each and every allegation contained above as if fully set forth herein.

42. During the Class Period, Defendants carried out a plan, scheme and course of conduct which was intended to and, throughout the Class Period, did: (i) deceive the investing public, including Plaintiff and other Class members, as alleged herein; and (ii) cause Plaintiff and

other members of the Class to purchase Plug's securities at artificially inflated prices. In furtherance of this unlawful scheme, plan and course of conduct, Defendants, and each defendant, took the actions set forth herein.

43. Defendants (i) employed devices, schemes, and artifices to defraud; (ii) made untrue statements of material fact and/or omitted to state material facts necessary to make the statements not misleading; and (iii) engaged in acts, practices, and a course of business which operated as a fraud and deceit upon the purchasers of the Company's securities in an effort to maintain artificially high market prices for Plug's securities in violation of Section 10(b) of the Exchange Act and Rule 10b-5. All Defendants are sued either as primary participants in the wrongful and illegal conduct charged herein or as controlling persons as alleged below.

44. Defendants, individually and in concert, directly and indirectly, by the use, means or instrumentalities of interstate commerce and/or of the mails, engaged and participated in a continuous course of conduct to conceal adverse material information about Plug's financial well-being and prospects, as specified herein.

45. Defendants employed devices, schemes and artifices to defraud, while in possession of material adverse non-public information and engaged in acts, practices, and a course of conduct as alleged herein in an effort to assure investors of Plug's value and performance and continued substantial growth, which included the making of, or the participation in the making of, untrue statements of material facts and/or omitting to state material facts necessary in order to make the statements made about Plug and its business operations and future prospects in light of the circumstances under which they were made, not misleading, as set forth more particularly herein, and engaged in transactions, practices and a course of business which operated as a fraud and deceit upon the purchasers of the Company's securities during the Class Period.

46. Each of the Individual Defendants' primary liability and controlling person liability arises from the following facts: (i) the Individual Defendants were high-level executives and/or directors at the Company during the Class Period and members of the Company's management team or had control thereof; (ii) each of these defendants, by virtue of their responsibilities and activities as a senior officer and/or director of the Company, was privy to and participated in the creation, development and reporting of the Company's internal budgets, plans, projections and/or reports; (iii) each of these defendants enjoyed significant personal contact and familiarity with the other defendants and was advised of, and had access to, other members of the Company's management team, internal reports and other data and information about the Company's finances, operations, and sales at all relevant times; and (iv) each of these defendants was aware of the Company's dissemination of information to the investing public which they knew and/or recklessly disregarded was materially false and misleading.

47. Defendants had actual knowledge of the misrepresentations and/or omissions of material facts set forth herein, or acted with reckless disregard for the truth in that they failed to ascertain and to disclose such facts, even though such facts were available to them. Such defendants' material misrepresentations and/or omissions were done knowingly or recklessly and for the purpose and effect of concealing Plug's financial well-being and prospects from the investing public and supporting the artificially inflated price of its securities. As demonstrated by Defendants' overstatements and/or misstatements of the Company's business, operations, financial well-being, and prospects throughout the Class Period, Defendants, if they did not have actual knowledge of the misrepresentations and/or omissions alleged, were reckless in failing to obtain such knowledge by deliberately refraining from taking those steps necessary to discover whether those statements were false or misleading.

48. As a result of the dissemination of the materially false and/or misleading information and/or failure to disclose material facts, as set forth above, the market price of Plug's securities was artificially inflated during the Class Period. In ignorance of the fact that market prices of the Company's securities were artificially inflated, and relying directly or indirectly on the false and misleading statements made by Defendants, or upon the integrity of the market in which the securities trades, and/or in the absence of material adverse information that was known to or recklessly disregarded by Defendants, but not disclosed in public statements by Defendants during the Class Period, Plaintiff and the other members of the Class acquired Plug's securities during the Class Period at artificially high prices and were damaged thereby.

49. At the time of said misrepresentations and/or omissions, Plaintiff and other members of the Class were ignorant of their falsity, and believed them to be true. Had Plaintiff and the other members of the Class and the marketplace known the truth regarding the problems that Plug was experiencing, which were not disclosed by Defendants, Plaintiff and other members of the Class would not have purchased or otherwise acquired their Plug securities, or, if they had acquired such securities during the Class Period, they would not have done so at the artificially inflated prices which they paid.

50. By virtue of the foregoing, Defendants violated Section 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder.

51. As a direct and proximate result of Defendants' wrongful conduct, Plaintiff and the other members of the Class suffered damages in connection with their respective purchases and sales of the Company's securities during the Class Period.

**SECOND CLAIM**

**Violation of Section 20(a) of The Exchange Act  
Against the Individual Defendants**

52. Plaintiff repeats and re-alleges each and every allegation contained above as if fully set forth herein.

53. Individual Defendants acted as controlling persons of Plug within the meaning of Section 20(a) of the Exchange Act as alleged herein. By virtue of their high-level positions and their ownership and contractual rights, participation in, and/or awareness of the Company's operations and intimate knowledge of the false financial statements filed by the Company with the SEC and disseminated to the investing public, Individual Defendants had the power to influence and control and did influence and control, directly or indirectly, the decision-making of the Company, including the content and dissemination of the various statements which Plaintiff contends are false and misleading. Individual Defendants were provided with or had unlimited access to copies of the Company's reports, press releases, public filings, and other statements alleged by Plaintiff to be misleading prior to and/or shortly after these statements were issued and had the ability to prevent the issuance of the statements or cause the statements to be corrected.

54. In particular, Individual Defendants had direct and supervisory involvement in the day-to-day operations of the Company and, therefore, had the power to control or influence the particular transactions giving rise to the securities violations as alleged herein, and exercised the same.

55. As set forth above, Plug and Individual Defendants each violated Section 10(b) and Rule 10b-5 by their acts and omissions as alleged in this Complaint. By virtue of their position as controlling persons, Individual Defendants are liable pursuant to Section 20(a) of the Exchange Act. As a direct and proximate result of Defendants' wrongful conduct, Plaintiff and other

members of the Class suffered damages in connection with their purchases of the Company's securities during the Class Period.

**PRAYER FOR RELIEF**

WHEREFORE, Plaintiff prays for relief and judgment, as follows:

- (a) Determining that this action is a proper class action under Rule 23 of the Federal Rules of Civil Procedure;
- (b) Awarding compensatory damages in favor of Plaintiff and the other Class members against all defendants, jointly and severally, for all damages sustained as a result of Defendants' wrongdoing, in an amount to be proven at trial, including interest thereon;
- (c) Awarding Plaintiff and the Class their reasonable costs and expenses incurred in this action, including counsel fees and expert fees; and
- (d) Such other and further relief as the Court may deem just and proper.

**JURY TRIAL DEMANDED**

Plaintiff hereby demands a trial by jury.

**SWORN CERTIFICATION OF PLAINTIFF**

Plug Power, Inc., **SECURITIES LITIGATION**

I, **DAWN BEVERLY**, certify:

1. I have reviewed the complaint and authorized its filing and/or adopted its allegations.
2. I did not purchase Plug Power, Inc., the security that is the subject of this action at the direction of plaintiff's counsel or in order to participate in any private action arising under this title.
3. I am willing to serve as a representative party on behalf of a class and will testify at deposition and trial, if necessary.
4. My transactions in Plug Power, Inc., during the class period set forth in the Complaint are as follows:

See Attached Transactions

5. I have not served as a representative party on behalf of a class under this title during the last three years except as stated:
6. I will not accept any payment for serving as a representative party, except to receive my pro rata share of any recovery or as ordered or approved by the court including the award to a representative plaintiff of reasonable costs and expenses (including lost wages) directly relating to the representation of the class.

☐ Check here if you are a current employee or former employee of the defendant Company.

I declare under penalty of perjury that the foregoing are true and correct statements.
